

## Conventions where sexual abuse allegations are disregarded as non-significant

Pamela Walton

**Updated August 20, 2024**

This post is to bring awareness and exposure to the fact that conventions are still not safe. Since this convention season (2024) started, there have been 16 individuals with allegations or convictions (that I am aware of ) that have either attended conventions or attempted to attend. I am keeping track so I can report out. Thank you to those at Walla Walla and Elizabeth conventions who did not allow these men onto the grounds.
